ND AGENCY.

The mave established, upon a permanent basis, an office as above for the transaction of all business pertaining to real estate, in Missouri AND ILLINOIS; and for the PAYMENT OF TAXES; REDEMPTION OF LANDS SOLD FOR TAXES; LOCATION AND ENTRY OF STATE OR GOVERNMENT LANDS; Examination of Titles; Purchase, sale and location of Land WARRANTS; COLLECTION OF MONEY, &c., &c., THROUGHOUT ALL THE WESTERN STATES.

Business in Missouri and Illinois will receive our personal attention. In the other States, it will be transacted through our travelling agents and correspondents, and in connection with our agencies at

Indianapolis, Indiana. Cincinnatti, Ohio. Louisville, Kentucky. Iowa City, Iowa.

Detroit & Lansing, Mich. New Orleans, Louisiana,

Columbus, Ohio. Milwaukie, Wisconsin. Mobile, Alabama. Cleveland, "St. Paul, Minnesota. Little Rock, Arkansas. Jackson, Mississippi. Nashville, Tennessee. Memphis, Tennessee.

Galveston and Houston, Texas.

and in each of the organized counties of each State.

We also offer our services for the investment of money in the purchase of lands, or loaning the same upon real estate security, and feel confident of our ability to make judicious, safe and profitable investments.

By promptness and fidelity on the part of ourselves, and agents, we trust our services will be of utility to the public.

MORTIMORES

RHEUMATIC COMPOUND

AND

This justly celebrated medicine stands without a rival in the history of discoveries, either in this or any other country. During the past year thousands have realised its beneficial effects. Under the personal treatment of the original discoverer and proprietor, as well as from the use of it in various portions of the United States, hundreds of the most obstinate and confirmed cases of severe *Chronic Rheumatism* have been effectually cured. Many of these had long been given up by the most eminent physicians, as incurable, and they had come to the conclusion, that they were cripples and invalids for life. But in the hour of despair they obtained this Rheumatic Compound, and by the use of

it, were effectually cured.

Certificates and letters, from Merchants and Citizens of the highest respectability, not only in the City of St. Louis where the proprietor resides, but various Cities of the Union, have been furnished the proprietor, testing the virtues of this medicine, and recommending it to all the world as the only sure and certain remedy for the speedy and effectual cure of this dreadful disease Rheumatism it has been discovered, has its origin in an impure state of the blood. This impurity, forms a caustic sediment which settles upon the membranes, muscles, and tendons. It is generally in the system a long time before it is felt. It is generally developed by exposure or sudden changes of the weather, and in a majority of cases its first development is that of an accute or inflammatory character, and if not soon removed, it assumes a chronic form, often dislocating the joints or contracting the limbs so as to ruin the individual for life.

This Rheumatic Compound is an internal remedy, purifies the blood, neutralizes and removes this impurity and restores the individual to

perfect health.

Manufactured and sold, Wholesale and Retail,

At D. MORTIMORE & Co's Medical Depot, St. Louis, Mo., and also for sale in the various cities in the United States.

SAINT LOUIS, MO.

E. Hall's Patent Concrete Fire Proof Safes.

E. HALL & Co., Manufacturers of Fire Proof Safes, on a plan entirely new, Patented 1849, and differing from those with which the market has heretofore been supplied, in the following particulars:

1st. No wood or combustible materials in walls and doors, render-

ing them more strictly fire and damp proof.

2d. The locks are strictly proof against the introduction of burg-

lars' instruments, false keys, or powder.

3d. The door and frame being strongly attached to the interior iron casting, will not allow of the removal of the entire front, by driving in or destroying the rivets around the front of the safe, as is so easily done with all sales made in the ordinary way, and not in accordance with our patent.

4th The substitution of a cement as fill ng which does no corrode the iron, instead of the Plaster Paris, which remains damp, and destroys the iron works, and renders the safe wet, is a

very important consideration

This I st feature is also secu et by late le ters patent.

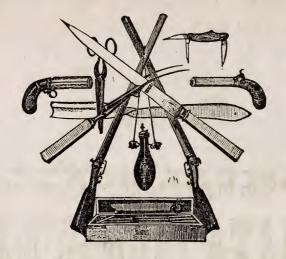

We say furth r. that no man facturer dare risk the reputation of their safes by testing one of equal size and the ckness with ours, on a fair trial by fire.
